

# Audit Oversight

The award-winning InPhase audit solution

Fast, friendly forms

Mobile responsive

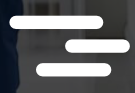

Real-time analytics

Question management

Triangulate audits and incidents

Audit action assurance

## HSJ PATIENT SAFETY AWARDS 2021

Finalist and award winning at HSJ patient Safety 2021 and Infection Prevention Society IPC award 2021

### Super speed with dynamic responsive forms

Audit Oversight drastically reduces form completion time by dynamically presenting you with only relevant questions based on the answers you've already given.

Use any PC, tablet, iPad or smart phone for Audit Oversight, anywhere. Our QR code generator means you can even scan to get the right audit for any location instantly.

### More completion, accuracy and assurance

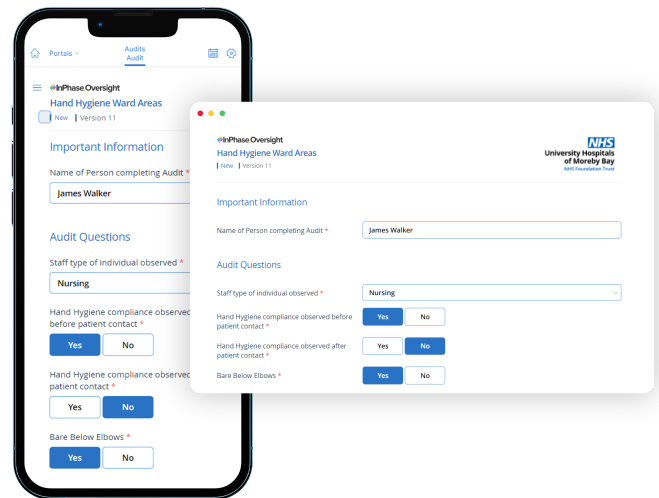

Reducing the length and complexity of audits and the time taken to complete them delivers better completion rates and more accurate audit results.

More accurate audits, leads to better audit actions with higher impact on the areas that matter, and with Audit Oversight actions are easily added, tracked and assured.

### You're in control of the questions

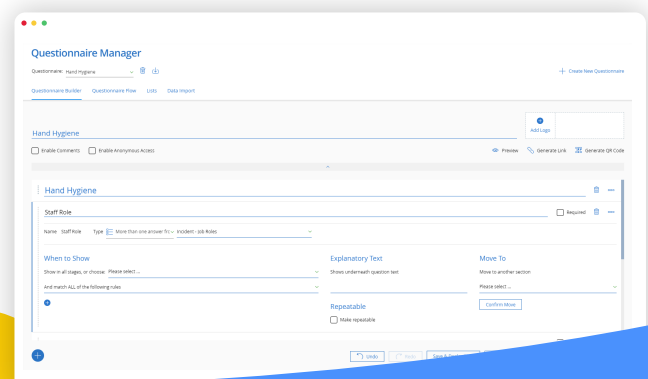

Audit Oversight from InPhase takes away all the constraints from creating and managing your audit questions with our easy-to-use drag and drop Question Manager and unlimited audits licensing.

Effortlessly create a new audit in a matter of minutes with drag and drop questions, sections and look up lists. Remove your audit constraints.

### Audits go further with triangulation

Audit Oversight can triangulate your audits with CQC self-assessments, safety incidents and near misses, policies, NICE guidance and other quality assurance information with instant integration with over 20 other Oversight apps, and even third-party systems including workforce, PAS and your data warehouse, boosting the power of your audits in helping achieve your wider continuous improvement ambitions.

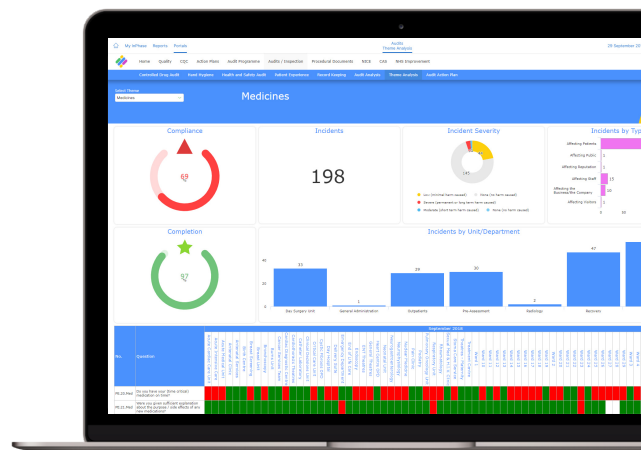

## Better reporting and analysis, sooner

Audit Oversight has excellent built-in reporting capabilities with out-of-the-box dashboards to help you see compliance and completion in real-time, by location and service at all levels, by CQC domain, or theme, and instantly spot specific question issue trends hidden by the high-level figures.

Slice, dice and analyse the data by Ward, unit, area or theme without spending hours building custom reports or exporting audit data into Excel or other analysis systems.

That's right – no more Excel hacking and pasting to produce committee reports that include your audit information.

## Wirral Wins with Audit Oversight.

With the support of a quick, easy-to-use, easy to access, integrated system, Wirral Community Health and Care NHS Foundation Trust were able to **increase their audit completion rates by 31% to a staggering 95%** completion in the first quarter after implementation.

*“ Staff are observing their data on a daily, weekly, monthly basis, and that means that change is happening much quicker, in a much timelier manner, which I think is just fantastic. ”*

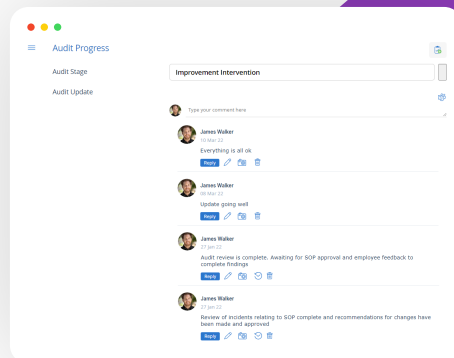

Director of Nursing & Quality Improvement  
Wirral Community NHS Trust

Wirral Community Health and Care in conjunction with Wirral Metropolitan Borough Council expanded the use of Audit Oversight into over 100 Wirral Care Homes for IPC.

Wirral became a finalist and an award winner at HSJ patient Safety 2021 and Infection Prevention Society IPC Awards 2021.
